Title: Journal of Experimental Biology and Agricultural Sciences
ISSN / E-ISSN: / 2320-8694
Publisher: Horizon Research Publishing

Dear Ms Manju Chaudhary,

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB has advised that the title will be **accepted** for inclusion in Scopus. For your information, the reviewer comments are copied below:

Thank you to have the Journal of Experimental Biology and Agricultural Sciences be indexed in Scopus.

The Journal of Experimental Biology and Agricultural Sciences is an open access journal and publishes original research articles related to biology, agricultural sciences, and veterinary sciences.

The first issue was published in 2013 and the journal follows a double blind review process.

Articles published in Journal of Experimental Biology and Agricultural Sciences are well cited in journals already indexed in Scopus.

The journal was reviewed earlier and the concerns raised during that review have been addressed in a satisfactory manner.

Journal of Experimental Biology and Agricultural Sciences meets now the qualifications to be indexed in Scopus.

Comment: The Journal of Experimental Biology and Agricultural Sciences considers itself an international journal, but the vast majority of the articles originate from India. To be considered as an international journal, it needs to attract authors from outside India.

Our Source Collection Management department will contact the publisher of this title within the next three months to initiate the indexing process for Scopus. A content coverage agreement needs to be in place before we can start adding the content to Scopus.com. If you are the publisher, please do not send us your content yet unless requested by our Source Collection Management department

Yours sincerely,

Scopus Title Evaluation Support
