Dear Jebas,

Thank you for contacting Scopus.

We are happy to inform you that the Journal "Journal of Experimental Biology and Agricultural Sciences " Is still active in Scopus and will continue indexing for the year 2020.

The title was accepted on Nov 2019, usually all titles will take three months for creating bibliographic record at our end before processing the published issues. And all these processes in this current situation have been slightly delayed by the time Scopus title creation cutoff exceeded.

I will make sure that the title is added in the new browser update.

If I can be of any further assistance, please do not hesitate to contact me.

**Kind Regards,**
